

Quikspread®

*Precise portions and
savings every time.*

Huhtamaki

Quikspread® containers take the guess and the mess out of portion control.

Huhtamaki Packaging Systems are unique in many ways. Components are sent to your plant, ready to be assembled with our own Huhtamaki Systems equipment. Formed containers are filled then sealed for excellent product protection.

Portion control is key in many restaurant operations. The pre-filled Quikspread containers are ready to load into a standard dispensing gun. With one click of the lever, one precise portion of sauce or spread is dispensed. Unique dispensing disc patterns for different condiments are used for just the right serving size and dispersion. These rigid containers allow for maximum evacuation of the product. Quikspread containers are suitable for:

- Sour Cream
- Guacamole
- Tartar Sauce
- Mayonnaise
- Etc.

Dispensing Disc Patterns

Canister Sizes

Take control.

Save up to 90% in transportation and warehouse costs.

Systems, Service and Savings

Huhtamaki Systems Machinery and components allow in-plant forming of your containers on-demand. Quikspread sidewalls are printed then shipped flat to reduce transportation costs and warehousing space. Assemble in your plant with Huhtamaki Systems equipment and components. Fill only what is currently needed or place in inventory to control production requirements and reduce product waste. Huhtamaki Systems, the packaging approach that makes all the difference!

Huhtamaki Systems formers are built in the USA by equipment engineers who understand packaging. These machines are designed with small footprints, minimum utility requirements, easy change over of canister sizes and are simple to operate. Our Systems approach is designed to deliver maximum value and service.

FM-1400 Automated Quikspread® Forming Machine

*Straight-walled with heat sealed flat bottom dispensing end.
Variable speeds from 50-75 containers per minute.*

Length:	7ft. 5in. (2260.6mm)
Width:	5ft. 4in. (1625.6mm)
Height:	7ft. 6in. (2286mm) w/guards in operating position 9ft. 0in. (2743.2mm) w/guards in service position
Conveyor Height:	37in. - 39in. (939.8mm - 990.6mm) <i>Adjustable</i>
Weight:	8,000lbs. (3,629kg)
Electrical:	240 Volts A.C., 3-phase, 50/60Hz, 80amps
Pneumatic:	80-90psi, 100scfm, measured at the machine

UL-4400 Automated Quikspread® Plug Inserter/Sealer/Crimper

Cycles on demand up to 70 containers per minute.

Length:	12ft. 10in. (3911.6mm)
Width:	4ft. 4in. (1320.8mm)
Height:	6ft. 5in. (1955.8mm)
Weight:	3,500lbs. (1591kg)
Electrical:	240 Volts A.C., 3-phase, 50/60Hz, 60amps
Pneumatic:	80-100psi, 60scfm, measured at the machine

CF-3200 Automated Plug Unscrambler/Feeder (feeds UL)

Variable, up to 180 plugs per minute.

Length:	56in. (1422.4mm)
Width:	61in. (1549.4mm)
Height:	77in. (1955.8mm)
Hopper Height:	42in. (1066.8mm)
Weight:	780lbs. (354kg)
Electrical:	240 Volts, 50/60Hz, 10amps
Pneumatic:	50psi, 5scfm

FM-1300 Quikspread® Semi-Automated Container Forming Machine

*Straight-walled with heat sealed flat bottom dispensing end.
5-8 containers per minute, operator dependent.*

Length:	53in. (1346.2mm)
Width:	49in. (1244.6mm)
Height:	69in. (1752.6mm)
Weight:	1,500lbs. (680.4kg)
Electrical:	240 Volts, 3-phase, 50/60Hz, 18amps
Pneumatic:	70-100psi, 35scfm

UL-4300 Quikspread® Semi-Automated Plug Inserter, Sealer and Crimping Machine

5-8 containers per minute, operator dependent.

Length:	36in. (914.4mm)
Width:	24in. (609.6mm)
Height:	56in. (1422.4mm)
Conveyor Height:	39in. (990.6mm)
Weight:	200lbs. (90.7kg)
Electrical:	240 Volts, 1-phase, 50/60Hz, 5amps
Pneumatic:	70psi, 10scfm
