In 2016, the Company will comply with the Code effective from January 1, 2016. Huhtamäki Oyj is a support member of the Securities Market Association.

This separate Corporate Governance Statement has been issued and published in connection with the Directors' Report. The Audit Committee of the Board of Directors of the Company has reviewed this statement and this statement has been approved by the Board of Directors. The Auditor of the Company has reviewed that this statement has been issued

and that the description of the main principles of the internal control and risk management systems of the financial reporting process fully complies with the annual accounts of the Company.

Huhtamäki's corporate governance comprises the General Meeting of Shareholders, the Board of Directors (Board) and the committees founded by it, the Chief Executive Officer (CEO) and the Group Executive Team (GET), laws and regulations applicable in the Group's operations as well as the Group's internal policies, guidelines and practices.

Updated information on the governance and remuneration of the Company is available on the Company's website in section "Corporate Governance" (www.huhtamaki.com/investors/governance).

Corporate governance structure

General Meeting of Shareholders

The General Meeting of Shareholders is the Company's highest decision-making body. Its tasks and procedures are defined in the Finnish Companies Act and the Company's Articles of Association. The Annual General Meeting of Shareholders (AGM) shall be held annually in Espoo or Helsinki before the end of June on a date set by the Board of Directors. In 2015, the AGM was held on April 21, 2015 at Finlandia Hall, Helsinki. The AGM 2016 has been planned to be held on April 21, 2016 in Helsinki.

The AGM passes resolutions i.a. upon adoption of financial statements including the consolidated financial statements, distribution of profits, granting the members of the Board and the CEO discharge from liability as well as election of the members of the Board and the Auditor. The AGM decides also on the Board members' and the Auditor's remuneration.

A General Meeting of Shareholders may also decide on, for example, amendments to the Company's Articles of Association, issuance of new shares and option rights and repurchase of the Company's own shares. The General Meeting of Shareholders may authorize the Board to decide, for example, on issuances of new shares or share repurchases.

The AGM 2015 decided in accordance with the proposal by the Board of Directors to set the dividend for 2014 at EUR 0.60 per share. The AGM re-elected Ms. Eija Ailasmaa, Mr. Pekka Ala-Pietilä, Mr. William R. Barker, Mr. Rolf Börjesson, Ms. Maria Mercedes Corrales, Mr. Jukka Suominen and Ms. Sandra Turner as members of the Board of Directors. The resolution on remuneration for the Board of Directors made by the AGM has been described later in section "Remuneration – Board of Directors – Financial benefits" and the resolution on election of the Auditor in section "Audit" of this statement.

At the General Meeting of Shareholders decisions are primarily made by a simple majority of votes. However, some decisions such as amendment of the Articles of Association, deviation from the shareholder's pre-emption right in connection with a share issue and decisions on merger, demerger or dissolution require a 2/3 qualified majority of the votes cast and the shares represented at the General Meeting of Shareholders.

An Extraordinary General Meeting of Shareholders (EGM) shall be held when considered necessary by the Board. An EGM shall also be held for the handling of a specified matter if requested in writing by the Auditor or shareholders holding altogether a minimum of one-tenth of all Company shares.

Shareholder rights

According to the Companies Act, a shareholder may request that a matter falling under the authority of the General Meeting of Shareholders shall be placed on the agenda of the meeting. To this effect, a written request should be sent to the Board well before the publication of the notice to convene the meeting. A shareholder has a right to make proposals and questions on matters handled in the General Meeting of Shareholders.

In order to be entitled to attend the General Meeting of Shareholders, a shareholder shall have to notify the Company of the intention to attend the meeting by the date specified in the notice to the meeting, which date may not be earlier than ten days prior to the meeting. A right to participate and vote in the meeting requires also that a shareholder has been entered in the shareholders' register of the Company eight business days before the General Meeting of Shareholders (record date of the meeting). The holder of a share registered under the name of a nominee may be temporarily entered in the shareholders' register for the purpose of participating in a General Meeting of Shareholders. A registration for temporary entry into the shareholders' register of the Company must be made by the date specified in the notice to the meeting, which date is after the record date of the meeting. This registration constitutes due registration for the General Meeting of Shareholders.

A shareholder may participate and vote in a General Meeting of Shareholders either in person or by proxy. A shareholder may also employ the services of an assistant in a General Meeting of Shareholders. Each share entitles its holder to one vote at the meeting.

In addition to attending and voting at a General Meeting of Shareholders, important rights of shareholders include for example shareholder's pre-emption right in connection with share issues, unless this right is deviated by a qualified majority of votes at a General Meeting of Shareholders, as well as right to receive dividends. All shares have equal rights to receive dividends.

Board of Directors

The Board of Directors is responsible for the management and the proper arrangement of the operations of Huhtamäki. The duty of the Board is to promote the interests of the Company and of all the shareholders.

Duties of the Board

The Board has a general authority regarding matters not specifically designated by law or the Articles of Association

to any other governing body of the Company. In addition to the powers vested in the Board by the Companies Act and the Articles of Association, the essential duties and working principles of the Board are defined in the Code of Governance for the Board of Directors. The Board decides on long-term strategic and financial targets as well as on dividend policy. The Board approves the strategic plans, annual plans and budget as well as monitors their implementation. The Board also decides on acquisitions and divestments as well as other significant corporate transactions, annual investment plan and individual capital expenditures exceeding EUR 6 million. The Board elects the CEO, approves the proposals by the CEO for GET members' appointments, decides on executive compensation and annually reviews the performance of the CEO and other management. The Board also conducts an annual evaluation of its own performance and working methods. The evaluation may be conducted as an internal self-evaluation or by using an external evaluator. In 2015, the evaluation was done as an internal self-evaluation without an external evaluator.

In order to discharge its duties, the Board requires information on the structure, business operations, operating environment, markets and financial position of the Group. Each member of the Board is provided with a monthly report on the financial situation and markets of the Group. In addition, if necessary, the Board is informed of all material events in the Group. New Board members are properly introduced to the operations of the Company.

Composition and election of the Board of Directors

The number of Board members and the composition of the Board shall enable the Board to see to its duties efficiently. The composition shall reflect the requirements set by the Group's operations and the development stage of the Group. Both genders shall be represented in the Board. According to the Articles of Association of the Company the Board shall consist of a minimum of six and a maximum of nine members. There are no limitations as to the number of terms a person may be elected as Board member or as to the maximum age of a Board member. The Company strives to ensure strong expertise in the business lines and geographical market areas that are important for the Group when electing the Board members. The Board members of the Company represent various business lines and they have broad management experience in several important market areas for the Group, including the emerging markets.

The Nomination Committee of the Board of Directors prepares a proposal for the election of the Board members to the AGM which elects the Board members for the term of office expiring at the close of the AGM following the election. The Articles of Association of the Company do not contain any provisions on a special order of appointment of the Board members but the AGM elects the Board members based on the proposal of the Nomination Committee of the Board of Directors. The Board shall elect from among its members the Chairman and the Vice-Chairman. If the CEO of the Company was elected to the Board, the CEO could however not be elected as the Chairman of the Board. The AGM 2015 elected the following seven individuals to the Board:

Risk management is an essential part of the internal control system of the Group. The Company has defined the principles applied in the organization of the risk management. The purpose of risk management is to identify potential events that may affect the achievement of the Group's objectives in changing business environment and to manage such risks to be within the Group's risk appetite so that there is reasonable assurance and predictability on the achievement of the Group's objectives. The risk management process of the Group is based on Enterprise Risk Management (ERM) framework of Committee of Sponsoring Organizations of the Treadway Commission (COSO).

The Group's risk management process involves assessing risks systematically by business unit, segment and Group function, improving risk management awareness and quality, sharing best practices and supporting cross-functional risk management initiatives. In order to systematize and facilitate the identification of risks they are categorized as strategic, operational, financial and information risks. Compliance with the risk management policy assures timely identification and recording of risks and the application of relevant risk management measures to address these risks. More detailed risk management procedures are set forth in the Group's ERM framework and process guideline.

The Audit Committee monitors the implementation of risk management activities, and evaluates the adequacy and appro-

priateness of the ERM. The Audit Committee reports regularly to the Board of Directors, which is responsible for reviewing the Group's strategic, operational, financial and information risks. The Board of Directors approves the Group's risk appetite and the extent to which risks have been identified, addressed and followed up.

The risk management process includes systematic identification and assessment of risks in each business segment and their business units as well as at Group level. Risks are consolidated from the business unit to the segment level and from the segment to the Group level. At each level risk treatment actions are defined in order to reach acceptable risk levels. Execution and supervision of these risk treatment actions is a task of line management. Upper level line management always approves lower level risk mitigation actions and the risk level reached after implementation of such actions. The Group Risk Management function monitors and reports the achievement of these actions. The purpose is to verify that risk treatment actions support the achievement of the Group's strategic, operational, financial and compliance objectives.

Chief Executive Officer and Group Executive Team

Decision-making process and main principles of remuneration

Remuneration and financial benefits payable to the Chief Executive Officer (CEO) and members of the Group Executive Team (GET) are determined by the Board of Directors normally on a yearly basis. Prior to the relevant Board meeting, the matter is deliberated by the Human Resources Committee of the Board of Directors. Remuneration is based on Group level remuneration principles, but local laws and market practices are taken into account when applying these principles. The remuneration of the CEO and other GET members consists of a non-variable annual base salary, benefits and an annually determined short-term incentive. In addition, the CEO and other GET members are participants in the long-term incentive plans consisting of the performance share plans.

The short-term incentives for the CEO and other GET members are based on financial performance of the Group

and achievement of the personal objectives. The short-term incentives for those GET members having a business segment responsibility are also determined based on the financial performance of the business segment in question. The relevance of the financial performance is 90% for the CEO and 80% for other GET members and the relevance of the personal objectives is correspondingly 10% for the CEO and 20% for other GET members. The following indicators are applied when setting financial objectives: earnings per share (EPS) before taxes, return on net assets (RONA), working capital ratios and value added. The above mentioned criteria are selected to promote the Group's financial targets and success on a short- and a long-term basis.

Objectives for the short-term incentives are set and the achievement is evaluated annually. Possible incentive payments are typically made in March following the earnings period January-December. The payment of the incentive is subject to the person being employed by the Group and not having resigned by the time of the payment. The maximum

amount of the short-term incentive for the CEO is the amount corresponding to 100% of the non-variable annual base salary. The maximum amount of the short-term incentives for other GET members varies depending on the position between 40–60% of the non-variable annual base salary.

Performance share plans function as long-term incentives for the CEO and other GET members. During 2015 the CEO and other GET members were participants in the Performance Share Plans 2012–2014, 2013–2015, 2014–2016 and 2015–2017. Further information on the performance share plans is available later in section “Share-based incentive plans”.
